

Fréjus Adjanohoun

Junior Full Stack Web & Mobile Developer

PROFILE

2nd-year Computer Systems and Software Engineering student at IATF, building web, mobile and desktop applications with React, Java/Spring Boot, PHP/Laravel, Flutter and MySQL. Curious and self-driven, I'm looking for an internship in software development to strengthen my technical skills and contribute to real projects within a team.

WORK EXPERIENCE

Web Development Internship

2025 · 2 months

COSIT Bénin

First exposure to a professional environment and strengthened web development fundamentals: page creation and structuring, styling and interface integration.
